

## SHIELD PLUS™

MONITOR. MAINTAIN. PROTECT.

Shield Plus was developed with a wide range of management features that enable you to optimize your equipment and crew. A web-based solution, Shield Plus can be accessed from any device and utilizes geofencing capabilities to create restricted areas and reduced speed zones. Combine that with real-time tracking of equipment, task management and work efficiency reports, and you have everything you need to maximize the effectiveness of your operation.

FLEET MANAGEMENT

## INCREASE PRODUCTIVITY

Shield Plus from Textron Fleet Management (TFM) allows you to receive detailed efficiency reports to maximize and manage your crew's workload, to raise revenue and lower expenses. Shield Plus is a web-based system that is accessible anytime, anywhere, using your computer, smartphone or tablet, allowing you to stay connected wherever the job takes you.

## ACTIVITY AND TASK MANAGEMENT

Shield Plus allows you to create specific activity zones throughout your property, establish target times for task completion, and balance workloads among your equipment and staff. Leverage real-time data to obtain equipment usage, mileage, hours, work and idle time to maintain healthy equipment and manage operations.

## EQUIPMENT TRACKING AND TRAVEL HISTORY

With Shield Plus, you can access real-time information and locations of all equipment. View travel history to analyze travel times between activity areas and optimize efficiency, getting the most out of your workday.

## PROTECT YOUR INVESTMENT

Define reduced speed zones and restricted geofence areas to keep your crew safe. Shield Plus will send you instant alerts detailing the location of equipment when exceeding speed limits or entering a protected geofence location.

## COMPREHENSIVE FUNCTIONALITY

### EQUIPMENT MANAGEMENT & GEOFENCING

Real-Time Tracking, Geofencing and Speed Alerts

Real-Time Geofencing

Utilization Data
